DOC Alentejo

Climate

Vidigueira microclimate. Mediterranean climate with strong atlanticity, as well as, a continental influence in Spring-Summer.

Soil Type

Schist

Production

1521 bottles

Winemaker

Paulo Laureano

Vinification

Gáudio Licoroso, a fortified wine made from the Antão Vaz grapes grown on plot no. 3.1.6. whose location is particularly suitable for a special fungus called *Botrytes Cinera*. After the harvest, the grapes are dried via *passerillage*, an ancient process for concentrating the sugar and aromatic compounds of the fruit. The grapes are then destemmed and pressed. After 24 hours at a temperature of 8°C the must is transferred to French oak barrels. As the natural yeast contained in the grapes starts to ferment, the temperature of the must increases, bringing out its full potential. The density and sugar contents are strictly controlled until the intended balance is achieved. Fermentation is then terminated by adding grape spirit that has also aged in our French oak barrels. The wine is then left in the cask to age for a year, resulting in this truly unforgettable nectar.

Bottling

Temperature controlled, semi-automatic filling.

ABV

18%

Total sugars

1 g/dm³

Total acidity

3,87 g/dm³ (Tartaric Ac)

Volatile acidity

0,56 g/dm³ (Acetic Ac)

ph

3,89

Colour

Amber

Consumption and Storage Conditions

3 months after bottling and up to 8 years, shelf life. Store in dark, fresh and dry conditions.

Nose

Warm deep honey tinged flavour with notes of white-fleshed fruit jam, nuts and spices.

Palate and Food Pairing

Its firm and structured character provides a long and lasting finish. Celebrate your unique moments with Gáudio Licoroso, together with typical Portuguese convent confectionery. Unforgettable!
